Thank You for Attending Our Meeting and completing the Survey

Written Comments Received From the 2016 Annual Meeting Survey

Programs You Would Like to See

Art, 517, 695, 760	(3) Solar Systems	2017 Code Changes
Transformer Basics	Gas Stations	Art. 514, 516, 517, 695
Articles 110 and 300	Article 250	MI Commercial Energy Code
Signs	LEED Lighting	Gas Pipe Grounding, not bonding
Pools and Energy Control	Hazardous Locations	Solar and Swimming Pools
Grounding Program	Fire Alarm Systems	Administration
Are inspectors checking licenses/App. Reg? Why/why not? How Handled?	Review of Conduit and box sizing, with raceway entry locations	Show how a seasoned inspector does an inspection step by step start to finish
PV Systems, Gas Stations, Propane Filling	Swimming Pool, Motors and motor controls	We need programs that more directly relate to our inspectors
IT, Data, License for same, w/code 8 rules and Insp. Req.	(3) Communication and Administration programs	Art. 700, Load Calculations
Photovoltaic or car charging info	Wire/Cable, Energy Code	Field Evaluations
Classified Locations	Wind Energy	New Products

What Can We Do Better

Hard to see and hear in the back	Less product Man. Speakers	Ladies program better organized
Diversify	Guest Program	Supply Pen and Paper
(5) Doing a good job.	More Mfg. products participators	Always liked code forums
Inspections by others with discussion	Limit time on sales pitch, focus on code changes and explanations	Add more programs, Less time for Sponsors. 1 hour programs are good 2 hours too long
Additional projector, screen and speakers	Plan review covered too much material in time span	Well Done!!

Comments

Excellent Program	Great Meeting!	Good Program
How about some admin and Comm. Classes.	Have material more specific to electrical	Need Communication and Administration Credits
Great job on Program	Would like to go back to Otsego Club in Gaylord	Really enjoyed this meeting
Use more member presenters!	State of Michigan Report and Representative at meeting	One of the best meeting/Info. Good Job!

It seems to me that the IAEI and others tend to bring in big name people or companies, the presenters share a ton of information, but very little is applicable to our everyday inspections or jobs. The 1st presenter from UL was very knowledgeable but 95% of all his info was useless to our everyday inspections or jobs. The general rep. spent 3/4's of his time on info that had very little to do with our trade, and then flew through the remainder of his presentation. In my opinion The first and last presentation were the most useful. Other may not write this, but I talked to several others at this meeting and they express the same. In my opinion the majority of the people show up to these for these reasons, listed in order. 1. Food and Location, 2. PA-54, 3. Knowledge.
