What Can We Do Better

Short break every hour.	Nothing	Temperature Control
More Inspector Schools	You are doing an Excellent job	Run day two all day
Control the side audience conversations	Make the PowerPoint's available Hard copy or email	Time for a new code panel moderator.
Mix up breakfast food, More variety	List current inspector job openings	Keep the side chatter down. Have respect for the speakers
Publish the code panel questions and answers. Why is this not being done?	Correct how people are addressed "ladies and gentlemen"	Provide people to take the microphones to those that have questions or comments.

To many people talking throughout the program. This needs to be addressed. Many time throughout the program. Inconsiderate to people sitting around them.
