What Can We Do Better

Great Meeting! (3)	Get rid of the round tables	Great Program (2)
10 minute break each hour or 90 minutes.	Have more of them. No such thing as too much education	It was very well suited for me being that I just started
Better sound system, Hard to hear over conversations within room	The MC does not need to be comedian	Buy microphones that attach on the ear/head and throw away the shirt clip type.
No more jokes from Walt	Food at lunch was cold!	Nothing
Not Much! Great Job. Hats off to the board!!	Better jokes	Nothing. Pretty good program
Too much info in too short of time makes no room for self relaxation and is ultimately not as useful.		Note paper available during meeting.

Comments

Caffeine other than coffee!	Enjoyed the entire program	Great Meeting or Program (6)
1st Time Attendee. Thank You Enjoyed the gathering. I plan to become a member.	Thank you so much, Looking forward to the next one.	The room and sound system was very good. Thanks for a good environment.
Code Panel with questions was excellent	Great Job - Keep up good work	Overall always a lot of info.
#6 to much floor pacing back and forth	Interaction at start of 1st day was good.	Love everybody. Every time! Thanks You!
I liked the energy code plan review. This new code seems to be a lot of questions and no one likes it. I now have a better understanding.		Great program, Great Facility & Breakfasts were the best ever.
It was good.	Great Food	Work on better food
Host for guest program did a great job, but during this program and during several meetings in the past, a person who was not hosting the program has been interfering, interrupting and borderline harassing the guest programs. Let the people hosting the guest program do their jobs, and keep the distractors away.
