Comments Regarding the Code Update Class

Comments Regarding the Code Update Class		
Cut down on hours	2 people scanning (3)	Less Info for same time
Good Program (3)	Best Code update so far	Nothing (7)
Good hotel but tables were too small	Increase the interaction between speakers	It is tough to take a subject like this and keep us in tune.
Loved Every session. Knowledge and Education Paramount		More Pictures
I believe that the code update was comprehensive	This has been an excellent experience!!	Already the best Code Update Class available!
Do it in December in Detroit	Less Hours. (3)	More Leg room (3)
Was "NOT" a snooze fest. Thank You	There were not enough rooms blocked	Understand about the hotel arrangements
Additional speaker locations, hard to hear in back	A few more breaks- too much chair time	Less chatter form others, it is hard to hear the speakers.
Doing Great	Not Much, It was great	Very good all around
Maybe a break every hour, sitting too long	Keep moving through the update.	More example pictures of sections
Excellent Job Folks!! Well Done!!	Enjoyed two speakers feeding off each other rather than one speaker	The code book and analysis book didn't match
Seating and table space was too cramped	More room between the tables (3)	More Interaction with vendors
Great group of speakers with code panel experience	The narrow tight tables were bit rough	Tables for lunch!
Not sure you can	Too long to sit	Thursday and Friday
Great job by everyone. My most enjoyable conference since I joined the IAEE in 2013		More room between chairs and tables
Awesome Presentations! Thanks!!	Special thanks to Dean Austin	Another excellent experience, Thank you.
Great to have the speaker to call out people talking and quieting down the small talk		Nice job, Good Book, Excellent Information
Way too many people for the room size. Too many people per table. Miserable conditions for 2 full days. I don't think another code update is a good idea for the summer meeting. I do believe registration would be down because of this.		

Written Comments Received From the 2019 Spring Meeting Survey

Programs you would like to see

PV Solar (20)	Michigan Energy Code ASHRAE (8)	Battery and Energy Storage (5)
Grounding & Bonding (5)	Marijuana Facilities (4)	Fire pumps (4)
Hazardous Locations (3)	Swimming Pools (3)	Residential Codes (3)
Wind Installations (3)	Marinas & Dock Power (2)	Art. 700 (2) & 702
Program with power company, getting a lot of homes with 400 amp services		
DC Microgrids	More on Specialty	EV Charging
Surge Protection	Fire Alarms	2020 proposed changes
Get Communications and Admin out of my way	Clear and concise business writing	Rules on growing Marijuana in homes
Smoke alarms and CO2	Motors, Transformers	Art. 430. 670. Chapter 9
Medical	Submitting code changes	NFPA 110
How to get inspectors and contractors involved in code changes, MRC & NEC through IAEI, NECA. Etc.. For Mech, Plumb, and building		

What Can We Do Better

Great having Dean Austin here, I appreciate his straight forward answers.	Speaker go less than 1 hour unless there is a break	Keep up the good work, Great Job (3)
Doing a great job (3)	Have More Meetings	Easier to turn on mics
Fix the isle mics, lot of delays just to turn them on	Promote more younger members	Too much side talk during our meetings, Have courtesy
Hard to hear in back	More scanning machines	Bigger eating area
Larger tables and more space	Time Management. Ran out of time of Part 8.	Smaller groups would encourage more participation
I can't think of anything that needs improvement	Bigger room to give elbow space or reduce the numbers	Great program, good food, nice hotel
New mics that can stay on and don't make bad noise	Excellent program	I felt like things ran smoothly
Bigger tables	Running out of water	More room between tables

Comments

What can inspectors do to help change the laws	Get rid of the Residential Code	Would like a larger block of hours like this for just T & S
It is nice to see that the State is moving forward in timely code adoption	Would go to Traverse City if the programs were not a code update	6 year cycle for MRC hurts electricians for a code update course
Would like more direct communication (personal) with IAEI Personal	What needs to be done to repeal the mandatory 15 hour update.	All Electrical Inspectors should be on the same registration cycle as before
Great job by the State eliminating unnecessary rules and amendments.	Not sure why we need more code update in Traverse City	Remove the electrical provisions from the MRC
