## Written Comments Received From the 2019 Annual Meeting Survey

### Programs you would like to see

(9). Solar, PV, Article 690.	(4). More Grounding	(4) Healthcare Facilities
(4). Generators and Transfer Switches	(3). More Code Panel Questions	(2). Electrical Vehicle Charging
(3). Energy Code	(3). Marinas and Docks	(2). Swimming Pools
(2). Healthcare Facilities	Wind Energy	Something from Utilities
Administration - State Statutes	Clear and concise business writing	More on 2020 Code Changes
Solar For Residential	Fire Alarm	? Means questions
More of Microgridding aspects / Battery storage interconnecting systems	Energy Code was a great program. We need more training on it.	Planning and common errors to avoid in Articles 700.701,702
Isolation panels and gensets	Very satisfied with variety of the programs provided	Determining hazardous locations
Articles 430 and 695	Fire Alarm Systems	Mobile Homes, RV Parks
Hybrid Systems & Energy Cells	Differences between NEC and MRC	Lighting control and government required

### What Can We Do Better

(4). Food!	(3). Provide follow up handouts, (PDF)	Breakfast tasty but the same both days
(3). Nothing	I think you are doing fine	Always
Less outside questions during presentation	Most places have better food	More Energy Code and new products
I thought things went well. The flow was good, no technical issues and content was good		Allocate more time for the code panel questions
More handouts - screens hard to follow even handouts w/answers for code panel questions. All answers are too elaborate (Get to the Point) Breakfast was very limited (no toast or rolls)		
Breakfast eggs, sausage & potatoes! Fruit or Danish option please	Going great, Menu's @ facilities for breakfasts and lunch could use improvement	
Continue with great new speakers from this meeting	If there is a 2 hour program, need a break in between	Speaker Tone & Temperature of room Keep 65-68
Would like to see code section answers for code Q&A		Provide Desserts

### Comments

Always appreciate the work and effort, Thanks	Certs only have 8 hours on them?	Did not like the eggs at breakfast
Great Topics and speakers Thursday	Would like More time for Code Panel	Too many code questions not enough time
Great Program	Nicely Done!!	Very Good Job
Food: Lunch, Good Selection.. But it was cold	My first one, I thought it was very good. Learned many different things	Overall real appreciate all the effort to put this together, Thank You!!
Return to this location only if the food gets better	The way Tim Monroe presented the information was great. He dealt with just what we as inspectors need to look for.	
How many times do we have to complain about the background noise?	Question and answers go through all questions before taking questions from class	You must be a master/contractor to get a ins. Lic.
