Comments

Great meeting/great speakers/great members. Wish we had more meetings.	Great venue! Food was awesome. We should come back here again.	I thought it was time well spent, glad to get back to face to face meetings
It seems that the question of marijuana growing operations (residential/commercial) shoud be a future subject. Also, we have to find a way to provide a coherent analysis of Art 250. Wednesday's discussion showed that pretty clearly		
It was great having in person meetings	Liked location and would be good to repeat location. Also, like the Wednesday and Thursday venue	
Meeting and accommodations were excellent	Miss the soda beverages during afternoon class breaks.	It was nice to get together again, and it was a great program
Meeting room was too cold	Need a better screen	Very nice facility and venue.
Nice program. Good site with lots of dining choices nearby.	Over all good meeting glad to be able to attend in person	Good clean facility. Close to Highways
Not often is it 100% but this was great	Very happy with program. Speakers were excellent. Location very nice. Great Hospitality room!	
U of M speaker digressed from code requirements to u of m preferences that tends to be a little confusing. Selective coordination was more engineering than code.		
Excellent Location Choice	The Best Hospitality Room	Enjoyed facility and would go again

Programs you would like to see

2020 NEC (3)	Solar Photovoltaics (3)	Article 310 (2)
Services (2)	Electric Shock Drowning (2)	Article 700
Grounding & Bonding (2)	Wire Sizing and Derating	Class 1, Division 1 classified locations
More Math of all Kinds	Article 625	Calculations
	Battery Backup PV Systems	Energy Storage Systems
Marijuana Facilities	Article 705	Purpose of the Code

What Can We Do Better

More inspector schools	Continue to try and attract younger members	Faster scanning process
Invite the newest journeyman perhaps as much as 1/2 off the meeting Room Cost		Keep Cost Lower when possible
Would like to discuss inspectors duties in more detail.		All good
Provide list of 407 Hours	Help other organizations	Have more meetings
