Programs you would like to see

(7) Photovoltaic, PV Solar	(2) Art.430, 445 and 450.	(2) Residential
Fire Alarms	Fire pump installations	grow service requirements
More NEC code change updates	Article 517 patient care facilities Deeper dive	Emergency lighting, UL 924 and UL 1008 devices
What does the State of Michigan require to be considered a good plan reviewer. List objectives.	content on effective presentations, effective teaching	ASHRAE, NEC and building energy codes
Admin. Follow thru for permit application , Zoning, Plan review process and where to find the Rules for TWP. policy's and procedures.		
Utility company metering equipment bonding	MI electrical code, energy code, residential code	More surge protection and grounding.
How to get inspectors and contractors involved in code changes, MRC & NEC through IAEI, NECA. Etc.. For Mech, Plumb, and building		
hazard locations	HVAC Inspections	Low Voltage
Motor control center	PA 230 and 407	Smart Home
Legal aspects of inspecting, liability, insurance etc. cannabis installations on residential EVSE, microgrid, new technologies / industries that affect our contractors		

Hotel Comments

(3) great	(3) Very nice hotel	Great and cost was great
For most of Michigan inspectors it is close to being the middle of State. Easy to get to even in winter.		Holiday Inn seems to be consistant
Can't help being short staffed I guess	I didn't stay at the hotel. I stayed at my cottage. I eat breakfast on my drive in to the seminar.	
I was able to commute, but the rest of the facility worked well in my opinion	The staff was very accommodating during the event.	The room rate was so good, expected poor accomidations
In past venues , the facility has provided note pads, pens and treats at each table. Not trying to be "chicken s**t, but those are little things that were absent and noticed. Not enough of a negative to stop me from retuning to this place.		
Conference room should be larger.	Excellent customer service from the hotel staff	Meeting area is OK but food service was poor.
Meeting room chairs not comfortable.	Lunch was a little congested.	taco bar lunch breakfast ?
Great place, great facility	Very clean great rooms.	Didn't stay, was booked up.

Meeting Comments

Always enjoy the input from the Inspectors. Keep up the good work!	Do not go back to that location, it's much nicer when they have a restaurant located within the hotel. Accommodations were nice however, it's nice to not have to go in search of places to eat.	
First meeting learned a lot met good people hope to go to more meetings in the future.	Program was informational, with good speakers.	
Great program , this was my first meeting very helpful.	very good overall seminar	
Food was ok, hotel was great. Book it again. The program was good glad to be back	Provide people to take mics to those with comments	
Good classes	(3) Great program!	All was good
Good Meeting, Good speakers, Thanks	All in all, a good program. I would like to see EACH Board member make a presentation soetime during their term	
Great meeting. Changes per NEC, EVSE, and new technology impacts and implications are most beneficial.	I thought overall everyone did a great job	
Good presentation and overall just a good group of people to analyze the code with.	The last speaker used a pointer on the middle screen it was hard to follow on the side screen	
Good Conference, good information. Would like to see more information on how ashrae, NEC, and building codes work together and are in conflict when it comes to lighting.	If its a code class focus on the code. If its an inspector class focus on whats new and what to inspect.	
I enjoyed all of the programs. Great presenters and great topics. Very engaging topics and discussions.		
Should have had other speakers or two after lunch Friday. We need the CEU. Plus we drove the distance to be educated.. I like to hear about other inspectors most over look code & how code was solved. Still it was a good one and a have day.		
Great to get together with people I don't see all the time. Always good to have a refresher		

What Can We Do Better

(3) All is good	Unsure at this point	Have more meetings
As many venues have dividers available, two concurrent areas for programs. This gives more opportunity for comment and questions.		
Can't think of anything in their control	Great job, keep up the good work!	Great meeting. Very well organized.
I feel the chapter does a very good job already.	Split up 50/50 prizes need more than 1 winner	Keep up good work like to have in person meetings
I think we have a great chapter and officers who deserve a pat on the back for all of their dedication and hard work.	How to submit Code panel questions for our meetings	
Request topics of interest from chapter prior to meetings?
